## CONFERENCE OBJECTIVES

To provide a forum for allied health care and medical professionals to contribute knowledge in the realms of palliative care theory, research, assessment, and treatment. Specifically, learning objectives include:

Identify ways to incorporate palliative care practices early in the care of patients with life-limiting, life-threatening, or terminal illness

Improve professional skills as a provider and as a team member emphasizing well-being across care settings

Learn to advance patient, family, and caregiver wellbeing through illness and dying across disciplinary approaches

### KEYNOTE SPEAKER

**Ira Byock, MD**

Dr. Ira Byock is a leading palliative care physician, author, and public advocate for improving care through the end of life.
